

Good Family Support Services

Literacy Scholarship

Good Family Support Services is committed to assisting children in our community with early literacy. We believe many health problems can be easily prevented by people simply being able to read properly. Too often we see cases of fatality and other preventable consequences when people cannot read medicine labels, discharge instructions, and basic health pamphlets. The literacy program provides childcare centers with scholarships of varying amounts (between \$500 - \$1,500) towards the purchase of qualified literacy learning devices to develop strong reading habits. This initiative by Good Family Support Services is an attempt to root out one of the main causes of poor health long before it begins.

Eligible centers must have the ability to utilize the learning devices to build a strong foundation for reading. GFSS make its decision based on applications submitted and onsite visits. In total GFSS hopes to donate \$50,000.00 in scholarship funds to qualifying centers in an effort to improve the literacy of over 5,000 children across Philadelphia.

Our goal at Good Family Support Services is not just to aid people in need of our care, but to eliminate the need for care all together.
